

## Hand free Kitchen and bathroom faucets

Modern kitchen and bathroom taps or faucets are automated with an electronic sensor which opens the tap for you hands free. No more need to open or close the tap with your hands.

Opening and Closing is activated by moving your hands under or away from the faucet.

Incase of long use The system will switch automatic off after one minute.

In general this type of faucets saves you till 30% of water.

A set exist out of the actual brass tap and an electronic control box. The electronic control box is powered from a 4xAA size battery or and from 120Vac.

price of this taps is around \$150,- . other types are available of which prices range from \$120,- till \$240,-
